

FOR IMMEDIATE RELEASE

AMNEAL WINS GENERICS BULLETIN “COMPANY OF THE YEAR” AWARD

Leading generics maker is recognized for exceptional growth

Bridgewater, NJ (USA), October 21, 2014 – Amneal Pharmaceuticals LLC is pleased to announce that the company has won the global “Company of the Year” Award from *Generics bulletin*, a newsletter which provides commercial and regulatory information for the global generics and biosimilars industries. Presented on October 7 at the Global Generics & Biosimilars Awards 2014 held in Paris, France, the award recognizes Amneal’s rapid growth in North America.

Amneal is the 7th largest U.S. generics manufacturer based on prescriptions dispensed, according to IMS Health. The company’s 76 FDA-approved generic medications and robust pipeline of 264 products filed with the U.S. FDA or in development cover a broad range of therapeutic categories. In addition to high-volume commodity medicines, Amneal’s portfolio contains many high-barrier-to-entry and difficult-to-formulate products and spans almost the entire range of dosage forms in the market.

To produce the highest quality generic medications for its customers and accelerate its incredible growth, Amneal is making major investments in research and development, infrastructure, and human capital. The company will spend more than \$400 million on R&D and capital improvements to its nine manufacturing plants in the U.S. and India over the next two years. Amneal has also invested considerable resources in human capital as well as product development and now employs over 2,600 worldwide.

In addition to its U.S. operations, Amneal is expanding internationally by establishing front-end marketing and distribution capabilities in UK, Spain, Germany, the Nordic countries, Switzerland, and Australia. The company is also pursuing acquisitions and evaluating strategic partners in Japan, Southeast Asia, and Latin America.

“We are deeply honored to be recognized as ‘Company of the Year,’” said Amneal Co-CEO and Co-Chairman Chirag Patel. “This award lets us know we’re doing all the right things to run a successful, growing enterprise while remaining true to our values - dedication to quality across all operations, maintaining our high standards and ethics and total commitment to our customers, partners and employees.”

About Amneal Pharmaceuticals LLC

Amneal Pharmaceuticals LLC is a U.S.-based manufacturer of generic pharmaceuticals. Known as “Generic’s New Generation[®]”, Amneal prides itself on its unwavering commitment to quality, meaningful business relationships, and its innovative approach to maximizing value for all stakeholders.
